

## **APTOLINK™ Announces Release of its RS-232 to miniSD Product for Handhelds**

*Serial-Link™ easily transfers data and files from a RS-232 port your handheld and vice versa.*

San Francisco, CA (PRWeb via [PRWeb](#)) January 25, 2008 -- AptoLink™, a system design and services company of consumer electronics and data communication products, announced today the production release of their easy to use Serial-Link™ product that enables the user to transfer data and files in .DOC, .TXT, .XLS and .CSV formats from a RS-232 port to handheld devices. Data can then be transferred to a PC using Serial-Link™ and a simple terminal emulation program through the PC's COM port.

The Serial-Link™ product is targeted for various commercial and industrial markets that include device maintenance, automotive and electronics, ventilation and air-condition/heating and building maintenance. "AptoLink provides an easy to use solution for customers who don't want to carry around a computer to the sites to transfer their data," said Kurt Conner, Vice President Product Management. "And the data transfer application software included with the hardware transfers an array of file types and ensures the integrity of the data transfer as well," he adds.

#### Product Availability:

Serial-Link is available at AptoLink website -- [www.AptoLink.com](http://www.AptoLink.com). Resellers for international markets inquire at [Sales@AptoLink.com](mailto:Sales@AptoLink.com).
